

Program Module Review

MMCGME Services has evaluated each accredited program on their use of the New Innovations modules. We are currently in the process of meeting with programs to review the evaluations. Please let us know if you have any questions or would like individualized training on certain modules. The link below is an example of the milestone-based module review.

Conference Module Training

This training is designed to provide instruction in managing conferences and didactics for your program in RMS. Use the Manage Conferences page to oversee all of your conferences in one place and view their statuses at a glance. This module includes options for scheduling, communicating, evaluating and reporting the educational experiences your program offers, including:

- Building stand-alone or recurring conferences
- Assigning speakers
- Sending attendee and speaker notifications
- Distributing conference quality surveys

RMS Training Sessions

8/9/17	Other Modules (Curriculum, Procedure Logger, and Scholarly Activity)
8/15/17	RMS Work Session
8/22/17	Conference Module Training

2017 GME Coordinator Conference

[Still time to register for the conference to be held on September 15, 2017.](#)

- ◆ The conference will be held at Como Park Zoo and Conservatory.
- ◆ Our scheduled Animal Ambassador is the Penguin.
