WHAT IS ADVANCEMENT?

In New Innovations, advancement is the act of automatically updating residents’ statuses to indicate a change in their roles on an appointed date, such as:

- Moving residents from one year in a program to the next
- Graduating
- Changing programs
- Becoming faculty

You can automatically promote each trainee in your program to their next activity by adding the advancement information to their training record. The record informs many of the modules and allows for intelligence to be built into our schedules, evaluations and financial applications.

The system looks at the advancement date the training record and moves all trainees to their next status on that date. If you need to customize this date for individuals whose are off-cycle, you can do it manually in their training record.

ADVANCEMENT CHECKLISTS

Once automatic advancement is configured, you can use our Advancement Checklists to assign tasks and distribute information to residents who are about to transition to a new role.

WHO CAN USE CHECKLISTS?

You can take advantage of this feature whether you are a GME administrator or a Program administrator. Advancing residents and fellows can use their advancement checklists to indicate their own progress. See Appendix A for details.
Before you begin building your Advancement checklist for new residents and fellows, you may want to make a list of things you distribute and collect from transitioning residents and fellows as well as tasks you expect them to complete.

- Insurance forms
- Contract information
- Policies and procedures

This worksheet can help you collect all pertinent details:

SETUP ADVANCEMENT CHECKLISTS

Advancement checklists are interactive to-do lists that can contain steps as simple as confirming a task is complete or uploading a document. You can add links that the recipient can click for more information. You can also set requirements for who should be assigned to complete steps.

1. Go to Personnel Data > Checklists > Advancement
2. Click the Checklists tab

3. Click New
4. Enter a name for the checklist
5. Enter instructions for the recipient on how to complete the form
6. Administrator Only – Check this box if the entire checklist will be used by an administrator for internal use only. The residents would not see any steps on this checklist.
7. Required for Advancement – Check this box if the checklist must be completed by the resident by the advancement date in order to advance their status type. If the checklist is not completed by the advancement date, the resident’s status type will NOT advance in Basic Information, which is tied to Payroll. However, resident information WILL advance in training records, block schedules & conferences allowing coordinators to prepare future records.
8. Option for Level 6 users:
   a. Check to prevent level 5 administrators from completing steps in the checklist
   b. Check to prevent level 5 administrators from deleting steps
   c. Check to prevent level 5 administrators from modifying requirements in steps
9. Click Save Checklist Settings
ADD NEW STEPS

Steps are tasks that you would like advancing residents or fellows to complete. They can include tasks that the recipient can mark complete, links to websites, document sharing, and requests for data. They can also be distributed to specific individuals based on certain criteria.

1. Click Add Step
2. Add a step name
3. Enter instructions for the recipient
4. Enter instructions that only administrators can see
5. Click Add Step

RECIPIENT CAN MARK AS COMPLETE

Check the box to allow the recipient to mark the step complete

ADMINISTRATOR ONLY STEP

Check the box if this step will be for administrators only. The resident would never see this step.
ADD A WEB ADDRESS TO A STEP

1. Click Add Step or select a step to add a link to
2. Click Settings in the Hyperlink section
3. Enter a name for the link. This will be the text that is linked to the website the recipient is to view
4. Enter the URL (web address)
5. Click Save Link

INFORMATION EXCHANGE

Use this feature to:

- Provide files for recipients
- Request a file from recipients. Allow them to upload a max of 5 documents. Limit 12 MB each.
- Provide a text box for the recipient to enter information
- Supply recipients with a Personnel entry form to complete
- Move uploaded files to a selected folder in Files & Notes
- Confirm receipt of Sponsor and Program Policies
- Distribute contracts to residents and fellows
Types of Information Exchange:

Provide Document to Recipient

1. Click Add Step
2. Select “---”
3. Click Upload File

Require Files from Recipient

1. Click Add Step
2. Enter the step name and instructions
3. Click Add Step
4. Click Settings in the Information Exchange section
5. For Type, select File Upload
6. Select options:

   b. Recipients can view attached files
   c. Allow multiple files to be uploaded
7. Optionally, specify a folder in Files & Notes where document will be moved upon step completion.
8. Click Upload File to attach a document for recipients.

If you would like to have final approval before the step can be marked complete, you can uncheck the box to allow recipients to mark the step complete. When the recipient uploads the file or completes a form, the status of the step will be “Pending” until you review and approve it.
Once the step is marked complete or approved, the document will then be stored in the folder you have selected in the setup. If no specific folder is designated, the document will be stored in the resident’s Files & Notes in a folder called “Checklists.” From there you can move the document to the appropriate area in Personnel.

3. Check Program Policies if you want the program policies distributed to the resident

Notes:

- To upload Program Policies, go to Administration > Program > Policies > Add Policy

APPENDIX A – ACCESS TO CHECKLISTS

GME ADMINISTRATORS – LEVEL 6 ACCESS

Administrators who oversee other programs and have **level 6** privileges in Personnel Data can:

- Create, edit, view any checklists in any department
- Supply blank documents for any incoming resident or fellow
- Create and attach forms to checklists
- View progress and steps for all checklist recipients in all programs
- Approve all submitted documents
- Approve data collected in forms and send it to recipients’ Personnel Data records
- Mark any step complete
GME ADMINISTRATORS WITH LEVEL 5 ACCESS AND PROGRAM ADMINISTRATORS

Administrators who are responsible for specific programs should have level 5 privileges in Personnel Data so that they can:

- Create, edit, view any checklists created in departments they have access to
- Supply blank documents for recipients
- Create and attach forms to checklists
- View progress and steps for all recipients in programs they have access to
- Approve documents submitted by recipients in their program
- Approve data collected in forms and send it to recipients’ Personnel Data records, provided they are not prevented from doing so by customized security
- Mark steps complete for people in programs they have access to

People with level 4 access can view checklists assigned to people in their departments and monitor their progress.

ADDITIONAL REVIEWERS

Reviewers are people who are given very specific access to certain steps on a checklist. You can identify certain people who are responsible for specific steps. For example, your human resources administrators may collect benefits enrolment forms. You could create a review group for them and assign the step “Submit benefits enrolment forms” to them. Then when they log into New Innovations and access checklists, they will only see the benefit enrolment form steps they are responsible for and no other steps.

Reviewers need to have level 1 access or higher in Personnel so that they can:

- Review and approve specific materials submitted for steps they have access to

INCOMING RESIDENTS AND INCOMING FELLOWS

People with Resident and Fellow statuses and advancement paths are the only people who can receive Advancement checklists. They do not need privileges in Personnel Data to complete a checklist, but they do need privileges in at least one module to be able to access the software. You may want to consider giving them at least level 1 access so that they can view their own Personnel Data record. Advancing Residents and Fellows can:

- View steps they can act on
- Submit documents
- Mark steps complete
