### Required Data and

#### Documentation Standard

The MMCGME Operations Committee developed and the MMCGME Board approved a community-wide [Required Data and Documentation Standard](#) after surveying hospital training sites to see what data and documentation each site collects. This standard is in effect for trainees beginning 7/1/19 and after.

### Now Available: MedEd To Go

MMCGME Services and its Operations Committee has developed a training site resource app, MedEd To Go, for residents and fellows to find logistical information about the major training sites. MMCGME is working with the GME Offices to distribute information to trainees about MedEd To Go.

Additionally, this resource will replace the former Site PowerPoint Presentations housed on MMCGME's website with the exception of the [North Memorial PowerPoint](#) (we're hoping to include North Memorial's information in MedEd To Go in the future).

Below are resources about MedEd To Go:
