## **Renewal Reminder** **Rotation Protocol & Attestation**

2022-2023 program rotation protocol and attestation review is well underway.

MMCGME Services has reached out to program management teams and GME offices to review resident and fellow rotation protocols and attestations for the 2022-2023 academic year.

Rotation reviews/updates and signed attestation are due to MMCGME Services no later than **August 31st**.

## **RMS & MMCGME Services**

Hospital sponsors within the MMCGME community require data and documentation to participate in rotations at their sites. The Resident Management System (RMS) aides and assures that programs and hospitals are entering the required data and documentation into a shared centralized database that may then be easily accessed, provide reliable, accurate and consistent data. MMCGME Services' mission is to facilitate and ease trainee rotations to various clinical/hospital sites and to reduce the administrative burden on program management as well as preventing unnecessary delays in resident or fellow training schedules.

Please review the [Data & Documentation Standard here](#). If you have questions about entering information into RMS, please contact [mmcgmehelp@umn.edu](mailto:mmcgmehelp@umn.edu).

## COORDINATOR CORNER...

### **MMCGME Coordinator Conference**

The 2022 MMCGME Coordinator Conference will be held on Friday, **September 9, 2022**. Keep an eye on your email for conference programming updates:

- Conference program/agenda
- Scheduled speakers/presentations

**Conference Registration is now open!**

(Register here: [2022 MMCGME Coordinator Conference](#))

### **Coordinator Timelines**

The ACGME Coordinator Advisory Group created customizable timeline templates summarizing various tasks, events, and deadlines managed in a typical academic year, and aim to help new and veteran coordinators alike organize and prioritize their daily, weekly, and monthly projects. The templates are a great resource and reminder tool to keep handy for daily program management. Document links have been provided below:
