

MMCGME Presents

# THE 2024 QUALITY Forum

Now accepting project submissions from medical school residents, fellows, and students! This is free event that includes dinner and cash prizes for competition winners! Scan the QR code below for details.

## 2023 Quality Forum Poster Competition Winner

" I realized as a trainee, I was on the front lines of care in my health system, and my co-residents and I saw opportunities for good changes on behalf of our patients and colleagues. We received recognition for our work in ED discharge instruction readability and primary care clinic continuity at the Forum, which has encouraged me to incorporate quality improvement into my career. I'm now working on a publication to share my project with the greater medical community. "
