RMS Block Schedule Freeze

In lieu of the rapidly changing learning environment and in an attempt to lighten your workload, MMCGME Services would like to request you keep track of where your trainees are going but **DO NOT MAKE CHANGES TO THE BLOCK SCHEDULE**. For those of you still on duty hour protocol, please request any new assignments you may need via [the usual means](#).

To keep us apprised of the actual changes in activity, you can either complete [this Qualtrics form](#) or track changes using the attached Excel sheet.

This will assist us in the future to figure out funding details given the unusual circumstances and exceptions that may occur due to the pandemic status of this event. Please let us know if you have any questions or need assistance with anything.

Thanks for all you do to allow your trainees to allow your trainees to serve patients.
